

Meritor Part

Meritor Parts - The Meritor Business is a leading global dealer established upon 100 years of tradition of quality and service. Meritor specializes in integrated systems with various modules and parts to the original machine manufacturers and aftermarket equipment within the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage in the global operations. The business values all of their clients and wishes to ensure their success while anticipating their different requirements. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 nations and hiring more than 11,200 people, Meritor promotes collaboration and innovation amongst a team of experienced professionals.

By only hiring future focused individuals, Meritor strongly believes these top-caliber workers would be able to rapidly adapt to changing surroundings and demonstrate the performance and commitment required so as to attain results in the competitive materials handling trade. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides all their workers different opportunities for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering which consist of axles, drivelines, braking and suspension systems used for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is even responsible for supporting the needs of all their international engineering staff.

The Quality team at Meritor is a dynamic and customer-focused group which is devoted to ensuring optimum progress at their production plants and aftermarket distribution facilities that are located on 5 continents and in 19 countries.

They have their supplier network which is particularly situated to be able to support the growth of the business. Each regional team has internationally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within each aspect of the company. The DFSS or likewise referred to as Design for Six Sigma ensures product reliability in each and every region. The team is also comprised of transactional Green Belts who make use of Six Sigma tools to business processes and apply lean techniques.
