

Clark Forklift Parts

Clark Forklift Parts - Currently, there are over 350,000 Clark forklifts performing worldwide, and in excess of 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specialized components fabricated for 20 distinctive brands of forklifts and automated equipment. Your local Clark Seller is your complete source for availability of all your parts needs offered by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Clark Totalift has a very outstanding intercontinental support network. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the materials handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark's relentless mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the internationally approved quality standard ISO 9001 for all of their production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental limitations, thus placing them in a dominant market position.

Clark has preferred the extremely economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and application of resources. This system was established to acknowledge the most efficient method of manufacturing facility stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The contemporary value engineering agenda combines progressive product growth and delivers superior client support and service within the industry.
